Notes to the Financial Statements

1. Summary of Significant Accounting Policies and Going Concern

A. Accounting Practices

The financial statements of Forethought Life Insurance Company ("the Company") are presented on the basis of accounting practices prescribed or permitted by the Indiana Department of Insurance.

The Indiana Department of Insurance recognizes only statutory accounting practices prescribed or permitted by the state of Indiana for determining and reporting the financial condition and results of operations of an insurance company for determining its solvency under Indiana Insurance Law. The National Association of Insurance Commissioners (NAIC) Accounting Practices and Procedures Manual (NAIC SAP) has been adopted as a component of prescribed or permitted practices by the state of Indiana.

The Company, with the permission of the Commissioner of Insurance of the State of Indiana, uses the Plan Type A discount rate with a guaranteed duration of less than five years under Actuarial Guideline 33 (AG33) on the entire in-force block of annuities with Guaranteed Minimum Withdrawal Benefits issued prior to October 1, 2013. By definition, AG33 would require the defined payments of the Guaranteed Lifetime Income Benefit (GLIB) benefit stream to be discounted using the Type B or Type C rate until the policy's contract value is exhausted and the additional payments to be discounted using the Type A rate.

A reconciliation of the Company's net income and capital and surplus between NAIC SAP and practices prescribed and permitted by the State of Indiana is shown below:

B. Use of Estimates in the Preparation of the Financial Statements

The preparation of financial statements in conformity with Statutory Accounting Principles requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities. It also requires disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenue and expenses during the period. Actual results could differ from those estimates.

C. Accounting Policy

Life premiums are recognized as income over the premium-paying period of the related policies. Annuity considerations are recognized as revenue when received. Health premiums are earned ratably over the terms of the related insurance and reinsurance contracts. Expenses incurred in connection with acquiring new insurance business, including acquisition costs such as sales commissions, are charged to operations as incurred.

In addition, the Company uses the following accounting policies:

- Short-term investments that have original maturities of greater than three months and less than twelve months at date of purchase are carried at amortized cost, which approximates fair value.
- Bonds not backed by loans are valued at amortized cost using the scientific interest method. Bonds in or near default (NAIC class 6) are stated at the lower of amortized cost or fair value. The Company holds certain SVO designated securities and has elected to use a systematic value measurement method to value those securities.
- Unaffiliated common stocks are stated at fair value. Fair value has been determined using quoted market prices for publicly-traded securities and management's pricing model for private placement securities.
- Preferred stocks are stated at cost or amortized cost except those rated NAIC class 4 or lower quality, which are carried at the lower of cost or fair value.
- Mortgage loans on real estate are carried at unpaid principal balance, net of discount/premiums and valuation allowance for impairments.
- Loan-backed bonds and structured securities are stated at amortized cost using the interest method including anticipated prepayments at the date of purchase in accordance with Statement of Statutory Accounting Principles ("SSAP") No. 43 - *Loan-Backed and Structured Securities*. Changes in prepayment speeds and estimated cash flows from the original purchase assumptions are evaluated quarterly and are accounted for on the prospective basis.
- Investments in common stocks of subsidiaries are stated at the value of their statutory equity adjusted for unamortized goodwill, if any.
- The Company has ownership interests in limited partnerships. The Company carries these interests based upon their proportionate share of the underlying GAAP equity of the corresponding limited partnership.
- Derivatives instruments are generally carried at fair value.

Notes to the Financial Statements

1. Summary of Significant Accounting Policies and Going Concern (Continued)

The Company utilizes CPI swaps which hedge exposure to inflation risk associated with its prefunded funeral insurance business and are carried at value consistent with the hedged liabilities. The FX unrealized gains or losses on currency swaps are recorded consistent with the GBP bonds hedged.

(10) The Company has no premium deficiency reserves.

(11) The Company began writing Medicare Supplement Insurance in 2010. Unpaid losses and loss adjustment expenses are based on past experience for losses incurred but not reported. The methods for making such estimates and establishing the resulting liability are continually reviewed and any adjustments are reflected in the period determined.

(12) The Company has not modified its capitalization policy from the prior period.

(13) The Company does not have any pharmaceutical rebate receivables.
